User History and Test Plan

User History - 01
As a user, I would like to sign up in the app, so I can know the weather

Acceptance criteria:
- user must inform the phone number and validate with the token
- user must inform the name with at least 3 characters
- user must share the location
- home screen must show the user current location
- home screen must show the current date and time

Test Scenarios

Scenario 1 - happy path
Given I'm with the app installed
When I sign up in the app
Then I should see the weather in my location
- steps
    - open the app
    - tap on the sign-up button
    - fill the phone number
    - confirm the token
    - fill the name
    - enable the auto location
    - share the location in real time

Scenario 2
Given I'm doing the sign up
When I need to receive the token again
Then I should see the text confirming that the token was sent

Scenario 3
Given I'm doing the sign up
When I fill in the confirmation code with the wrong token
Then I should see the message informing that the token is invalid.

Issues:

 # 1 - When click on the "Cadastrar" button, the layout of the screen is broken;

 # 2 - When fill the name field, the screen don't sinalize the user that he must provide a name with 4 characters of more

 # 3 - is allowing to proceed with the signup only if the user input a name with two words, which is wrong according with the acceptance criteria, it should only need one word with 3 of more characters

 # 4 - The permission to share the location is not been displayed properly

 # 5 - the current date is been displayed in a format different from the specified by the designer
